

Scott Phillips, Vice President and Chief Executive Officer Mining, GE Transportation

Scott Phillips is a GE Officer and Vice President and CEO of GE Transportation's Mining business. In this role, he is responsible for sales, product and service capabilities in all major mining markets around the world and operations in Australia, the U.S. and China.

He previously served as President, Global Equipment for Sandvik, and held P&L responsibility for the complete Sandvik global mining equipment offering including drilling, loading & hauling, underground coal and minerals, hard rock continuous mining, and exploration. Prior to this role, Scott served as President, Loading & Hauling.

Prior to Sandvik, Scott spent five years in China as Chairman of the Board with Signal Capital Group and Executive Director of the Board of Directors with Freeman Financial Corporation, overseeing a range of strategic acquisitions, valuations, structuring and fund-raising for investments across several industries including mining, resources, and energy. He also spent 16 years with Caterpillar in roles of increasing responsibility.

Scott graduated from Southern Illinois University College of Engineering with a bachelor's degree in industrial technology, and received his MBA from Illinois State University.
