

Seth Bodnar, Chief Digital Officer, President Digital Solutions, GE Transportation

Seth Bodnar is the Chief Digital Officer of GE Transportation, and the president of GE Transportation's Digital Solutions business. In this role, he is responsible for digital innovation that provides a connected suite of software solutions to drive productivity, operational efficiency, and enhanced service quality and reliability for the global transportation industry.

He previously served as the general manager of GE Transportation's Signaling Solutions business, where he led a team that managed a portfolio of more than 200 rail signaling and communications projects worldwide. He also has held roles as a product manager in GE's locomotive business and roles in finance and strategic marketing at GE Corporate and GE Power and Water. Prior to GE, he was a Special Forces officer in the United States Army and served multiple overseas deployments.

Seth graduated from the United States Military Academy at West Point with a bachelor's in Economics. He holds two master's degrees from the University of Oxford, and is a recipient of both the Rhodes and Truman scholarships.
