

Monica Caldas

SVP - Chief Information Officer, GE Transportation

Monica Caldas is the Chief Information Officer for GE Transportation. In this role, Monica is driving the horizontal integration of the Digital Technology (DT) function into GE Digital, while delivering innovative solutions for GE Transportation, its customers and employees. Monica brings IT industry expertise from both the financial services and industrial sectors to deliver business model innovation through a robust digital strategy.

Monica has been with GE since 2001 and has held roles of increasing responsibility across several GE businesses in areas such as IT Operations, Software Development, ERP management and global roll outs, systems integrations, and organizational effectiveness. Immediately prior to Monica's current role, she was the CIO of GE Transportation's Global Services & Digital Solutions team.

Monica is also the senior executive co-sponsor for the company's GE Girls program, a STEM based global company initiative. In addition, she is passionate about employee engagement, continuous improvement and an active member in the GE Women's Network and Hispanic Forum. Monica was also most recently recognized in *Hispanic Executive Magazine's* Top 2016 Leaders and a finalist in the 2017 *Chicago CIO Orbis Awards*.

Monica holds a Bachelor of Science in business and management information systems from the University of Connecticut, and a Master of Business degree from Pennsylvania State University.
