

Mano Mannoochahr

Chief Information Officer
GE Transportation

Mano Mannoochahr is the Chief Information Officer for GE Transportation driving the horizontal integration of the Digital Technology (DT) function into GE Digital, while delivering innovative solutions for GE Transportation, its customers and employees.

Prior to this, Mano was the Chief Data & Innovation Officer for GE responsible for data, analytics and emerging digital technologies across the company. Before that, Mano was Chief Information Officer for GE Energy Connections, an \$11B business within GE. In this role, Mano was responsible for traditional functions of information technology including application development, information security, data and analytics, ERP, supply chain/manufacturing, product lifecycle management, commercial, architecture and operations. Before joining GE in 2016, Mano worked for John Deere as Global Director of Data, Analytics and Strategy.

Mano holds a BS in Computer Engineering from the University of Kansas and an MBA from Northwestern University, Kellogg School of Management.
